The antenna party held on February 21 was a big success with special thanks to Jim Clark. Jim really made our day by showing up with the crane from GRAHAM BROTHERS HEATING AND AIR CONDITIONING.

Also Jim was Johnny-On-The-Spot-Antenna-Climber-Extraordinary. I really wasn't surprised though, as Jim is always ready to jump in and give a hand. Thanks Jim, you really made the 40 foot tower with attached antenna come down easy. There really wasn't a lot of competition in tower climbing was there Jim? And Jim, it was fun to be on the crane again. The last time that I was the crane operator for that same crane was about 13 years ago. Where has the time gone?

Email address updates needed! At the February breakfast there was a request to post email addresses for our members. If you have an email address that you wish to have posted in the RF or a roster, then please send an email to me at: kd6bwh@juno.com and I will get the updated list to the editor for printing.

Now is the time to get those dues paid. March is the last scheduled RF to be mailed to members who have not yet paid their 1998 dues. Now is also a good time to work on your friends and make them aware of the Orange County Amateur Radio Club. I saw Bud VPP doing just that during a recent RACES meeting in Anaheim. We do need new members.

Fried Heyn was at the February meeting and appointed John Clark KD6PZF as an assistant who will liaison with Fried and the ARRL. We are glad to have John representing our club and bringing us the latest ARRL news. Fried and Sandy also announced the ARRL SW convention which will be held August 14-16, 1998 at the San Diego Town & Country Convention Center.

We will have a committee going to a meeting on March 28 near the TRW Swap meet to pitch our club efforts for the 1999 Convention to be held on the Queen Mary. That convention will be on Oct. 1-3, 1999.

Minutes of OCARC Board Meeting 07-March-98

All board members were present except Bob/AF6C and Jim/KE6UCH. Fourteen people attended the breakfast and board meeting.

Phil/N7PA reported that the club treasury had \$1875.59

Larry/K6LDC reported that the March program will be presented by Comet Antennas.

Phil/N7PA made a suggestion that the OCARC could save money if we converted towards E-Mail distribution of the RF newsletter (either completely or partially). A poll of how many people would Not be interested in receiving the RF via E-Mail yielded:

- 4 out of 13 were not interested
- 1 out of 4 had not E-Mail access
- 3 of the 4 preferred the quality of the mailed RF newsletter

Larry/K6LDC reported that the "Not So DX Expedition" was scheduled for May 1,2,3 Larry is taking reservations now.

Because 6 of 8 board members will be at the camping outing, no board meeting will be held at COCO's in May. The May breakfast will also be canceled. Steve /KE6NAH will inform COCO's.

Larry/K6LDC reported the Marketing Committee, formed to boost OCARC membership drives, will hold their next meeting at 6.30pm (before the OCARC regular meeting) on Friday 20-March.

Phil/N7PA proposed that the OCARC form a committee to investigate creating an OCARC Web site. The committee is composed of Chairman-Frank/WA6VKZ, Phil/N7PA, Larry/K6LDC and Ken/W6HHC.

The committee has permission to plan for using up to \$100 per year for such a site.

Location Set For Third Semi-annual "Not So DX-Pedition"

Its going to be Joshua Tree

On Thursday, February 12th, Larry, K6LDC and Art, KE6WOX went searching for the next location of the 3rd semi-annual "Not So DX-

Pedition" that is to be held the first weekend in May. The location is going to be perfect. We will be at Black Rock Campground in the Joshua Tree National Park.

This will be especially attractive to those who do not have an RV. There are great tent sites, excellent RV pads (without hookups), there are flush toilets and city water available. Picnic tables and fire pit at each campsite.

Art and Larry listened on some of the HF bands and the reception seemed very good to excellent. The site is at an elevation of 4,000 feet, so we should be able to also do well on VHF.

Because it is a National Park, there is a fee for camping. It is \$10.00 per campsite. If you are 62 or older, and have a "Golden Age Passport" you only pay \$5.00. (Golden Age Passports are available from the park service for \$10.00 and are valid for free admission to most national parks and discounts on camping. They are good for a lifetime.)

Campsites may be reserved. So that all of us can be together, Art and Larry will collect the \$10.00 reservation fee from those planning to attend at the meeting on March 20th. If you don't make a reservation, you may come anyway, but you will not be guaranteed a specific campsite. They have selected those sites they feel will be best for a group field day and antenna construction (besides being close to the johns). Maps and campground site layout will be available at the March meeting for all who make a reservation. We will submit a map and campground site layout for publication in the April "RF."

Don't be left out. At the last "Not So DX-Pedition" we had a great time. Plan on coming up on Friday or Saturday. Larry and Art will be there on Friday Morning. Bring your rig(s), your antenna(s), and your camping gear. Food and beverages are the responsibility of each camper, but last October we pooled our food and other delights and all ate together. It was fun and tasty. We also tried to get Jack Daniels and Johnny Walker to join the club, but they were gone by bedtime, hi. The campsite is close to the town of Yucca Valley, so those who wish to, can eat in town (or sleep there).

Guests are not only welcomed, but encouraged.
Bring Some!
